#### **Auditor's Report**

To: The Shareholders of MISR CEMENT (QENA) COMPANY (S.A.E)

#### Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of MISR CEMENT (QENA) COMPANY (S.A.E), which comprise the consolidated statement of financial position as at December 31,2024 and the consolidated statements of income, comprehensive income, changes in equity and cash flows for the financial year then ended, and a summary of significant accounting policies and other explanatory notes.

#### Management's Responsibility for the Consolidated Financial Statements

These consolidated financial statements are the responsibility of the company's management. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Egyptian Accounting Standards and in the light of the prevailing Egyptian laws, management responsibility includes, designing, implementing and maintaining internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error, management responsibility also includes selecting and applying appropriate accounting policies and making accounting estimates that are reasonable in the circumstances.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Egyptian Standards on Auditing and in the light of the prevailing Egyptian laws. Those standards require that we comply with ethical requirements, plan and perform the audit to obtain reasonable assurance whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers the internal controls relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

#### Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of MISR CEMENT (QENA) COMPANY (S.A.E) as at December 31, 2024, and of its financial performance and its cash flows for the year then ended in accordance with the Egyptian Accounting Standards and the Egyptian laws and regulations relating to the preparation.

#### **Emphasis of matter**

Without qualifying our opinion above, the total of accumulated losses of Qena for maintenance and management as of December 31, 2024 amounted to EGP 20 735 336, hence the company losses exceeded the half of owner's equity and according to article (69) of law no. 159 of 1981 the board of directors shall call for an Extraordinary General Assembly meeting to consider the company going concern.

- Based on the decision of the extraordinary general assembly meeting dated on November 22, 2020 the company's name changed to Minya cement (S.A.E) and the company was registered in commercial registry under No.10253 dated on 4 March ,2019.
- The percentage of ownership for Misr Cement company (S.A.E) in PORTLAND EL Company (S.A.E) amounts to 13.88%.

Translation of financial statements

#### 1. About the Company (follow)

#### 1.6. Approval of the Financial Statements (follow)

#### MISR CEMENT MINYA (S.A.E) (Follow)

- In 1 November 2015 Misr Cement Company (S.A.E) acquired 44 872 676 shares in Misr Cement Beton (S.A.E) as(S.A.E) which represents 46.48% from the total shares for the company, resulted in a goodwill balance amounts to EGP 438,174,608 which represents the difference between the investment cost amounts to EGP 932,844,955 and 46.48% of the total net assets for PORTLAND COMPANY (S.A.E) in the acquisition date amounts to EGP 494,670,347.
- The goodwill balance was recorded in the consolidated Financial Statements in the non- current assets section and it is tested for impairment in the consolidated Financial Statements regularly and in the case of loss in the goodwill it is recorded in the consolidated financial statements.
- As so the percentage of ownership for Misr Cement Company (S.A.E) in Minya Cement (S.A.E) became to 60.36%.

#### 2. Basis for financial statement 's preparation

#### 2.1 Basis of consolidating the financial statements

- The consolidated Financial Statements are prepared by consolidating the Financial Statements of the Holding Company and its subsidiaries through collecting similar items of assets, liabilities, equity, revenue and expenses.
- Investment in subsidiaries was eliminated from holding company for consolidated purpose.
- Unrealized intercompany transactions are eliminated for consolidated purpose.
- Non-Controlling shareholders in net assets and net income of subsidiaries controlled by the parent company is recorded in a separate account within the Equity in the consolidated Financial Statements and is calculated by their share in the book value of net assets of subsidiaries.

#### The acquisition cost was distributed as follows:

- 1. The fair value of assets and liabilities in the acquisition date of investment and within the limits of the share of the parent company that was acquired on that date
- The increase in the acquisition cost over the parent company share in equity of the subsidiary's companies are recognized as goodwill.

#### 2.2 Following Polices and regulations

 The consolidated Financial Statements are prepared according to the Egyptian accounting policies and regulations.

#### 2.3 The presented and disclosed currency

The Financial Statements are presented in the Egyptian pound which is the same currency of transactions and the main and significant activities in the company.

#### 2.4 Basis of measurement

The Financial Statements are prepared accorded to the historical cost principle

#### 3. Significant accounting estimates and personal judgments

#### 3.1 The significant estimates and assumptions

The preparation of Financial Statements according to the Egyptian accounting standards requires that management uses personal judgments and making estimates and assumptions that can affect the application of policies and the values of assets and liabilities also revenues and expenses. The estimates and assumptions are evaluated based on past experience and some other factors including the expected future events that fit these circumstances.

These estimates and assumptions are reviewed annually and any differences in the accounting estimates are recognized in the year in which these estimates are changed, and if these differences affect the year in which these changes are made and future years, these differences are recorded in the year in which the adjustments are made and the future years. The most significant estimates and assumptions the company uses are as follow:

Translation of financial statements

#### 3. Significant accounting estimates and personal judgments (Follow)

#### 3.1 The significant estimates and assumptions (Follow)

#### a. Income tax

The Company is subjected to corporate income tax. The Company estimates the income tax provision by using expert's advice. In case of any difference between any of the final and preliminary results, these differences will affect the income tax and deferred income tax provision in these years.

#### b. Expected credit loss of debtors

The evaluation in the value of receivables is made through debt aging. The Company management is studying the credit position and the ability of payments of the customers who their numerous debts are due during the credit limit granted to them and the impairment is recorded with the value of the due amounts on the customers who the Company management indicate that their credit position do not allow them to pay their liabilities.

#### c. Useful lives of fixed assets

The estimated useful life is depending on estimation and personal judgment based on the experience of the Company with similar fixed assets taking into consideration the estimated usage of the asset and number of working shifts and technical limitations. Residual values and useful lives of assets are reviewed on annual basis.

#### d. Impairment of Inventory

The company's management reduces the obsolete and low turn-over inventory into its net ordinary value based on special reports about its usage and future benefits.

#### 3.2 Significant personal judgments in applying the company's accounting policies

Applied accounting policies do not require from management is personal judgment which may have a significant impact on the value recognized in the financial statements.

#### 3.3 Fair value measurement

- a. The fair value of financial instruments is identified according to the market value of the financial instruments or similar financial instruments on the date of the financial statements. The value of the financial assets is identified by their replacement cost, while the value of the financial liabilities is identified by the current prices that can settle these liabilities.
- b. In case there is no active market to determine the fair value of the financial instruments the fair value is estimated using different valuation methods taking in consideration the prices of recent transactions and using the current fair value of other significantly similar Instruments-Deducted cash flow method- or any other evaluation method results in values on which we can depend.
- c. When using the deducted cash flow method as a method of evaluation the future cash flow is estimated based on the best estimates by management. And the used deduction rate is identified based on the prevailing price in the market in the date of the Financial Statements of instruments similar in nature and conditions.

#### 4. Significant accounting policies

The accounting policies set out below have been applied consistently to all years presented in these financial statements.

#### 4.1 Foreign currencies translation

Transaction in foreign currencies are initially recorded using the exchange rate prevailing on the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated using the exchange rates prevailing at the balance sheet date, all differences are recognized in the statement of income

Non – monetary items that are major are historical cost in foreign currencies are translated using the exchange rate prevailing at the date of the initial recognition.

Translation of financial statements

#### 4. Significant accounting policies (Follow)

#### 4.2 Fixed assets and its Depreciation

#### a. The first recognition and initial measurement

Fixed assets are stated at the historical cost after deducting accumulated depreciation and accumulated impairment losses.

#### b. Subsequent Cost

Such cost includes the cost of replacing part of the fixed assets when that cost is incurred, if the recognition criteria are met, Likewise, when major improvements are performed, its cost is recognized in the carrying amount of the fixed assets as a replacement if the recognition criteria are satisfied, all other repair and maintenance costs are recognized in the statement of profit or loss as incurred.

#### c. Depreciation

Depreciation is determined based on the fixed assets less salvage value as residual value at the end of estimated useful life.

The Salvage value of asset is the net amount currently expected to be obtained as a result of Disposal, if it is in the expected condition at the end of its useful life.

The depreciation amount is carried on the income statement according to the straight line method by the useful life estimated to each kind of fixed assets except land that not depreciated, the depreciation of fixed assets is depreciated according to the following rates:

Assets	Depreciation rate
Buildings, constructions and facilities	5% - 6.6%
Machinery and equipment	5% - 10%
Motor vehicles	20%
Tools	10%
Furniture, fixtures and office equipment	10% - 50%
Rental improvements	The duration of the contract or the useful life, whichever is less

#### 4.3 Projects under construction

Projects under construction represent the amounts that are incurred for constructing or purchasing fixed assets until it is ready to be used in the operation, upon which it is transferred to fixed assets.

#### 4.4 Intangible assets

- Intangible assets are started at the historical cost and the historical cost deducts of accumulated amortization and accumulated impairment losses.
- Intangible assets with definite useful lives are amortized over the economic life of the asset and a
  measurement test is conducted when there is an indication of the asset's impairment. The amortization
  method for an intangible asset with a definite life are reviewed at least at the end of each year.

#### 4.5 Financial Leased Assets

The original (right to use) asset and a commitment to lease contracts are recognized at the start date of the lease, whereby the lease contract commitment is measured at the present value of unpaid rental payments on that date, discounted using the interest rate on the additional borrowing of the company, and results in financing expenses in accordance with Accounting Standard No. (49) for the year 2019.

#### 4.6 Leased contracts

The Group has applied EAS 49 using the modified retrospective approach and therefore the comparative information has not been restated and continues to be reported under EAS 20. The details of accounting policies under EAS 20 are disclosed separately.

Translation of financial statements

#### 4. Significant accounting policies (Follow)

#### a. Policy applicable from 1 January 2021

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a year of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group uses the definition of a lease in EAS 49. This policy is applied to contract entered in to, or after Jan 1, 2021.

#### b. As a lessee

At commencement or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component right of use asset.

#### c. Right of use asset

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

#### d. Amortization of right of use asset

Amortization of right of use asset the right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the cost of the right-of-use asset reflects that the Group will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

#### e. Lease contracts liability

The lease liability lease contract liability is initially measured at the present value of the lease payments that are not paid at the commencement date

Discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The Group determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased. Lease payments included in the measurement of the lease liability comprise the following: fixed payments, including in-substance fixed payments; variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date; amounts expected to be payable under a residual value guarantee; and the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal year if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early. The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, if the Group changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment. When the lease liability is re-measured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero. The Group presents right-of-use assets that do not meet the definition of investment property in property, plant and equipment' and lease liabilities in 'loans and borrowings' in the statement of financial position.

Translation of financial statements

#### 4. Significant accounting policies (Follow)

#### 4.7 Investments in associates

Associate companies are those that the company has, directly or indirectly, influential influence over it, but it does not reach the extent of control or joint control, as the company ownership stakes ranging from 20% to 50% of the voting rights in sister companies.

The purchase method (acquisition cost) is used in accounting for the acquisition of associate companies, and the goodwill resulting from the purchase of sister companies - if any - does not appear separately, but is included in the book value of the investment in associate companies after acquisition in the consolidated financial statements of the company using the equity method.

According to the equity method, the initial recognition of the investment in the associate companies is carried out in the statement of financial position of the compound at cost. An adjustment is then made to recognize the group's share of the profits and losses and other changes in the net assets of the associate companies.

#### 4.8 Investments at fair value through other comprehensive income

Financial investments are carried at fair value through comprehensive income at cost on the date of acquisition. Investments listed on the stock exchange are valued at fair value (market value). As for investments that are not listed on the Stock Exchange, they are valued at the calculated value - based on the studies related to this matter - The resulting differences are recorded as a special reserve - Differences in evaluating available-for-sale financial investments within shareholders' equity. When the investment is sold, its share in the special reserve is added to the income statement.

For fair investments that are inactive (having no market value in an active market) and whose fair value cannot be determined with sufficient confidence,

These investments are recorded at the cost of their acquisition, and in the event of a decrease in the value of these investments (impairment), the book value is adjusted by the value of this decrease and charged to the income statement for each investment separately.

#### 4.9 Inventory

The Inventory elements are valued as follows:

- a. Raw materials, gasoline, diesel fuel, packaging and spare parts: at the lower of cost (using the weighted average method) or net realizable value.
- b. Work in progress: at the lower of the cost of production based on the cost sheets or net realizable value
- Finished goods: at the lower of the cost of production based on the cost sheets or net realizable value.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

The amount of any write down of inventories to net realizable value and all losses of inventories shall be recognized in cost of sales in the statement of Income statement in the year the write down or loss occurs, the amount of any reversal of any write down of inventories, arising from an increase in net realizable value, shall be recognized as reduction of cost of sales in the statement of Income statement in the year in which the reversal occurs.

#### 4.10 Revenue

#### A. Sales

Revenue from sale is recognized at the fair value after deducting returns, commercial and quantity discounts. The revenues are recognized at the transfer of risks and returns of goods to the purchaser and at the presence of enough expectation about the flow of economic benefits in the sale transaction and in case of the company didn't hold the right of continuous managerial interference on goods to the purchaser at the receipt of goods, and in case of exporting the risks and returns of sold goods ownerships are identified based on the freight conditions as the revenue usually recognized when the goods are loaded on the truck.

Translation of financial statements

#### 4. Significant accounting policies (Follow)

#### 4.10 Revenue (followed)

#### - Sale of goods (Local)

Revenue from sale of goods is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods.

#### - Sale of goods (Export)

Revenue from sale of goods is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods according to contract terms.

#### B. Distributed dividends

Revenue is recognized when the company's right to receive the payment is established.

#### C. Interest income

Revenue is recognized as interest incurred using the effective interest method.

#### 4.11 Expected Credit Loss

- The company has two types of financial assets that are subject to the expected credit losses model according to this methodology:
- Customer balances and notes receivables generated from services to customers
- b. Contract principles related to the company's contracts with customers
  - The company applies the simplified approach to the impairment of financial assets in accordance with the Egyptian Accounting Standard No. (47) Financial Instruments in order to measure expected credit losses, which uses a provision for expected credit losses over the life time of all customer balances and contract assets with customers
  - To calculate the ECL, we depended on the customer and contract assets with customers' balances as a group based on common credit risk characteristics and the number of days past due.
  - Where the assets of the contract with the customer relate to the work in progress that has not been invoiced and has the same risk characteristics as customer balances for the same types of contracts Accordingly, the company concluded that the expected credit loss rates for customer balances are a reasonable approximation of the expected credit loss rates for the assets of contracts with customers.
  - ECL rates depended on analyzes of sales payments over the 36 months before December 31, 2021 and the corresponding historical credit losses incurred during this year.
  - The default rate calculated through this approach and used to calculate ECL is the company's historical default rates for each level of number of days past due by the company's customers, which is depended on sales payment analyzes over the 36 months before December 31 2021 and the corresponding historical credit losses that have been incurred during this year
  - In order to determine losses related to customer balances, notes receivables, and contract assets, the minimum allowable loss in case of failure (Loss Given Default) for each balance at risk is 100% due to the lack of any guarantee with the company.
  - The amount that the debtor owes to the company at the time of the failure to pay is known as the balance exposed to failure (Exposure at Default), and the clearing is recognized in the statement of financial position between the balance of the debiting customer and the balance of the same crediting customer, the balance exposed to failure is determined as the unpaid balance on the date of the report, including any interest accrued till the date of the report.
  - Egyptian Accounting Standard No. (47) Requires that the purpose of estimating ECL is not a worst-case scenario or a best-case scenario estimate. Instead, the ECL estimate should always reflect the probability that credit losses will occur, even if the most likely outcome is no credit losses. Therefore, the company applies macroeconomic scenarios to expected credit losses, where historical loss rates are adjusted to reflect current and future information about macroeconomic factors that affect the ability of customers to settle outstanding debt balances. The company has determined that the gross domestic product and the current account balance as a percentage of the gross domestic product and the annual change in the rate of inflation "average consumer prices" in the Arab Republic of

Egypt, which is the country are sale the goods and the services so these indicators are the most relevant factors and thus adjust the loss rates historical based on expected changes in these factors.

Translation of financial statements

#### 4. Significant accounting policies (follow)

#### 4.11Expected Credit Loss(follow)

- The applying of the Egyptian Accounting Standard No. 47 "Financial Instruments" from January 1, 2021 led to changes in the accounting policies, which are resulted to amendments are recognized in the financial statements as on December 31, 2020. Where there is an impact on the opening balance of the retained earnings on January 1 2021 amount to EGP 16 487 597.

#### 4.12 Provisions

A provision is recognized in the balance sheet when the Company has a present or legal or constructive obligation as a result of past events, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are reviewed at the date of preparing the Financial Statements and adjusted when necessary to show its best estimate.

#### 4.13 Taxes

#### A. Income Tax

Income tax is a tax on the Company's profit and is calculated according to the relevant laws, regulations, and instructions that are currently being implemented in this regard while using the prevailing income tax at the date of preparing the balance sheet. The tax on income should be reflected in income statement.

#### B. Deferred taxes

Deferred tax occurs to reflect the existence of some temporary differences due to the difference in time frames when the current value of assets and liabilities are recognized between the prevailing taxation principles and accounting principles that are adhered to when preparing the financial statement. The deferred tax is determined according to the prevailing method used to settle the present value of assets and liabilities. It should be taken into account that the deferred tax maybe considered an asset of the company if there is a possibility that it may be used to reduce the accrued tax profits of the company for future years, and the amount of the deferred tax considered as an asset of the company is reduced by the amount that may not be off-set against future taxes.

#### 4.14 Receivables, notes receivable, debtors and other debit balances and suppliers' advanced payment

Receivables, notes receivable, debtors and other debit balances and suppliers' advanced payments are stated at the original invoice amount net of any impairment losses that is expected not to be collected by the company.

#### 4.15 Related party transactions

Transactions with related parties are recorded in the same way as its normal operations according to the conditions stated by the company's management and on the same basis as transactions with others.

#### 4.16 Treasury shares

Treasury shares are initially measured at cost value and are deducted from the equity in balance sheet.

#### 4.17 Legal reserve

According to the Company's articles of association, 5% of the net profits of the year are transferred to the legal reserve until this reserve reaches 50% of the issued capital, when the reserve falls below that limit the company should start deducting it again.

#### 4.18 General reserve

The general reserve is formed from the company's profit in the previous year's according to the general assembly meeting resolution; This reserve is used upon a decision from the general assembly meeting based on the proposal of the board of directors and the interest of company.

Translation of financial statements

#### 4. significant accounting policies (follow)

#### 4.19 Capital reserve

The capital reserve is formed by the amount of capital gains and the fixed assets endowed to the company,

#### 4.20 Borrowing

Borrowings are initially recognized at the received value of the consideration received. Amounts maturing within a year are classified as current liabilities, unless the Company has the right to postpone the settlement for a year exceeding one year after the balance sheet date, then the loan balance should be classified as long-term liabilities.

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate method. Gains and losses are recognized in the income statement when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the effective interest rate. The effective interest rate amortization is included in finance cost in the income statement.

#### 4.21 Expenses

All expenses including cost of sales, selling and marketing expenses, general and administrative expenses and other expenses are recognized and charged to the statement of income in the financial year in which these expenses were incurred.

#### 4.22 Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial year of time to get ready for their intended use or sale are capitalized as part of the cost of the assets. All other borrowing costs are expensed in the year in which they are incurred. The borrowings costs are represented in interest and other finance costs that company pay to obtain the funds.

#### 4.23 Pension plan for employees

The company pays its share in the social security according to social security law No, 79 for the year 1975 and its amendments, and its included in salaries and wages account in the income statement on accrual basis.

#### 4.24 The Contingents Liabilities and Commitments

Contingent liabilities of which the company is part of as well as off-balance sheet commitments which don't represent actual assets or liabilities at the date of financial statements.

#### 4.25 Dividends

Dividends are recognized as an obligation in the year which the declarations of distributions are made.

#### 4.26 Cash Flow Statement

The cash flow statement is prepared according to the indirect method.

#### 4.27 Cash and cash equivalent

Cash and cash equivalents include cash on hand and at banks, time deposits accrued within three months and deducting from it time deposits accrued after three months and letter of grantees cover also the current bank accounts (credit balances).

#### 4.28 Comparative Figures

The comparative figures were reclassified to comply with current figures.

#### 4.29 Earnings per share

The company presented the data related to the basic share of its regular shares. Earnings per share is calculated by dividing the company's profits on the number of ordinary shares of the company by the weighted average of the number of shares during the year.

Translation of financial statements

#### 4. significant accounting policies (follow)

#### 4.30 Capital management

- The Board of Director's policy is to always maintain a strong capital base to maintain investor, creditors and market confidence and to sustain future development of the business.
- The board of directors aims to make a balance between the highest interest rates available with reasonable terms and conditions to maintain a healthy capital structure.

#### 4.31 Fair value of financial instruments

The financial instruments are represented in the company's financial assets and liabilities and the financial assets include the account receivables, notes receivables and other debt balances and cash on hand and at bank also the financial liabilities include customers advanced payments, contractors, accounts and notes payable and other credit balances.

According to the basis of evaluation followed in evaluating the company's assets and liabilities which is present in the disclosure footnotes of the financial statements, the fair value of the financial instruments doesn't differ significantly from its book value at the date of the preparation of the financial statements.

#### 4.32 Financial instruments and risk management related

The company's financial instruments are balances of bank accounts, cash in hand, Receivables & Notes Receivables, Debtors & other debit balances, creditors and other credit balances. The following shows the risks related to the financial instruments and the procedures continued by the company to minimize the effect of such risks:

#### A. Credit risk

This risk is represented in the disability of clients to pay their outstanding liabilities, this risk is considered limited as the clients have a solid credit history.

#### B. Liquidity risk

The liquidity risk is represented by factors that impact the repayment of amount or all of the company's commitment according to the company's policy the suitable policies are taken to decrease the risk level to the minimum

#### C. Interest rate risk

Interest rate risk is represented in the change in value of financial instrument due to the fluctuation of the market interest rates. This risk is considered limitied as the company depends on its own resources in financing its financial needs to pay its current obligations and finance the fixed assets.

#### D. Foreign currency risk

The foreign currency risk is the fluctuation of currency exchange rates since that affect the company's open receivables and payables balance in foreign currency also asset and liability evaluation in foreign currency and this is considered a limited risk.

#### 29. Tax Situation

#### The Tax situation for Misr Cement Qena

#### a) Corporate taxes

#### An Introduction

- -The company was established according to the law No.159 for the year 1981 and the general authority for investment and free zones approved that the company is exempted for tax for cement only according to the law of assurance and incentive of investment No. 8 for the year 1997 and that starts from the next year of production (6 April 2002) and for ten years which starts from 1 January 2003 to 31 December 2012.
- -Financial year ended on 31 December 2013 considered the first year subjected to tax.

#### 1. Years from beginning of the activity to 2004

All tax differences that are due have been paid.

#### 2. Years from 2005/2007

- -The company was inspected in these years the differences were settled and the taxes were paid.
- -Tax authority objected on the appeal committee's decision about the provision used for the year 2007 with amount of EGP 11 661 503 based on the fact that the provision represent amounts transferred to abroad and must be subjected to article 56 of law 91 for the year 2005 and decided to debit amount and subject it to 20% amounted to EGP 2 915 376 and filed a lawsuit against the company being considered of Qena first instance. The court used experts to consider the difference. We have prepared a note include the legal defense and discussions with the expert about it and issue the expert report that the tax authority does not have the right to subject the provision used according to article 56 from the law no,91 for the year 2005 and its executive regulations an initial judgment was issued in 24 September 2014 for the entitles for the company about this item. The country appeal representative objected on the decision and The appeal is being considered by the competent court, and the Administrative Court of the State Council in Qena issued a decision rejecting the case, and the representative of the state appealed against the ruling and it was transferred to the Supreme Administrative Court in Cairo.

#### 29. Tax Situation (Followed):

The Tax situation for Misr Cement Qena(followed)

#### 3. Years from 2008/2014

The company was examined for those years and the dispute for that year ended.

#### 4. Years from 2015/2018

The tax office sent an estimated form (19 taxes) for those years, including the corporate tax of the amount EGP 315 260 095 and differences in Article (56) in the amount of EGP 29 939 425. The form was appealed within the legal dates, and the actual examination of the company's books and documents was re-examined. The examination resulted in tax differences as follows:

- Corporate tax differences amounting to EGP 28 652 192.
- · Article 56 differences amounting to EGP 59 526.
- Article 147 container amounting to EGP 5 182 000

This is in addition to the delay fee and the additional tax, and due to the presence of major points of disagreement between the company and the tax office, the re-examination memorandum was appealed within the legal deadline to discuss the items of disagreement before the competent committee.

#### 5. Year 2019

-The Tax authority examined the company's books and documents for that year. Form (19 Taxes) was sent via the electronic portal of the Tax Authority, including the corporate tax differences in the amount of EGP 7 824 204, in addition to the delay fee and the additional tax. Due to the presence of major points of disagreement between the company and the Tax Authority, the form was appealed. Within the legal deadline for discussing the disputed items before the competent committee.

#### 6. Year 2020/2022

#### 30. Changes in Egyptian accounting standards

Changes in Egyptian accounting standards

Dated March 3, 2024 issued by the Prime Minister's Decision no. (32) for 2024 to amend some provisions of the Egyptian Accounting Standards and below is summary of the most important amendments.

Accounting Standards and below is summary of the most important amendments.				
The Standards that were Reissued	Summary of the major amendments	Impact on the financial statements	Date of application	
Amended Egyptian Accounting Standard No. 34 "Investments Property"	The fair value model application mechanism has been modified, adding that the profit or loss arising from a change in the fair value of investment property must be recognized in the list of profits or losses for the year in which the change arises or through the other comprehensive income list once in the age of the asset or investment, taking into account paragraphs (35a) and (35b) of the standard.	Not applicable to the company	The amendments to add the fair value model option to the financial years commencing on or after 1 January 2024, allowing for early retroactive application, with the cumulative effect of applying the fair value model being demonstrated initially by adding it to the retained earnings balance at the beginning of the financial year in which the company first applied the model.	
Egyptian Accounting Standard No. (17) amended 2024 "Separate Financial Statements"	Egyptian Accounting Standard No. (17) "Financial Statements" was reissued in 2024, where the option to use the equity method as described in Egyptian Accounting Standard No. (18) has been added "Investments in Associate Companies" when accounting for investments in subsidiaries, associate companies and joint control companies.	Applies to the company	The amendments shall apply to financial years commencing on or after January 1, 2024, and early application is allowed retroactively, with proof of the cumulative impact of the application of the equity method by adding it to the retained earnings balance at the beginning of the financial peroid in which the company first applied the model.	
Egyptian Accounting Standard No. (13) amended 2024 "Effects of Changes in Foreign Exchange Rates"	This standard was reissued in 2024, adding how to determine the intraday rate when it is difficult to exchange between two currencies and the conditions that must be met in the intraday exchange rate on the measurement date.  An application guidelines appendix has been added, which includes guidelines for assessing whether a currency is exchangeable for another currency, and guidelines for applying the required treatments in case of non-exchangeability.		The adjustments for determining the intraday exchange rate when the exchange between two currencies is difficult shall be applied to the financial periods starting on or after January 1, 2024, and early application is allowed, and if the entity makes early application, this must be disclosed.  Upon application, the entity may not modify the comparative information, instead:  When an entity reports foreign currency transactions in its currency of dealing, any effect of the initial application is recognized as an adjustment to the opening of the retained earnings balance on the date of initial application.  When an entity uses an offer currency other than its own dealing currency or translates the results and financial position to a foreign currency, any effect of the initial application is recognized as an adjustment to the cumulative balance of foreign currency exchange— accumulated on the equity side — on the date of initial application.

#### 31. Important Events

- On March 6, 2024, the Monetary Policy Committee of the Central Bank of Egypt decided to raise the overnight deposit and lending rates, and the main operation rate of the central bank by 600 basis points to 27.25%, 28.25%, and 27.75% respectively. The discount and credit rates were also raised by 600 basis points to 27.75%. The central bank also decided to allow the exchange rate to be determined according to market mechanisms. Consequently, the exchange rates of the Egyptian pound against the dollar and some other currencies declined.
- The impact of the current uncertain economic environment is an estimation, and the management will continue to assess the current situation and its associated impact regularly and it should also be considered that the assumptions used regarding economic expectations are subject to a high degree of uncertainty and, therefore, the actual outcome may differ significantly from the expected information. The company has taken into account the potential effects of the current economic fluctuations, which represent the best assessment by the management based on available information. However, markets remain volatile, and the recorded amounts remain sensitive to market fluctuations.
