Limited Review Report

To: The Chairman and member of the board of directors of MISR CEMENT (QENA) COMPANY (S.A.E)
(Egyptian Joint Stock Company)

Introduction:

We have performed a limited review for the accompany separate interim financial statements of MISR CEMENT (QENA) COMPANY (S.A.E) which comprise the separate interim statement of financial position as at march 31,2025 and the related separate interim statements of income Separate interim, other comprehensive income Separate interim, change of equity Separate interim and cash flows Separate interim for the three months then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and Fair presentation of these separate interim financial statements in accordance with the Egyptian Accounting Standards, our responsibility is to express a conclusion on these separate interim financial statements based on our limited review.

Scope of limited review

We conducted our limited review in accordance with the Egyptian standard on review engagements 2410 "Limited review of separate interim financial statement performed by the independents Auditor of the entity". A limited review of separate interim financial statements consists of making inquiries primarily to people responsible for financial and accounting matters in the company and applying analytical and other limited review procedures. A limited review is substantially less in scope than an audit conducted in accordance with Egyptian standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express such an audit opinion on this separate interim financial statement.

Conclusion:

Based on our limited review, nothing has come to our attention that causes us to believe that the accompany separate interim financial statements do not present fairly, in all material respect the separate interim financial position of MISR CEMENT (QENA) COMPANY (S.A.E) as at march 31, 2025 and its financial performance and its cash flow for the three months ended then, in accordance with Egyptian accounting standards.

3. Significant accounting estimates and personal judgments

3.1 The significant accounting estimates and assumptions

The preparation of financial statements according to the Egyptian accounting standards requires that management uses personal judgments and making estimates and assumptions that can affect the application of policies and the values of assets and liabilities also revenues and expenses. The estimates and assumptions are evaluated based on experience and some other factors including the expected future events that fit these circumstances.

These estimates and assumptions are reviewed yearly and any differences in the accounting estimates are recognized in the year in which these estimates are changed, and if these differences affect the year in which these changes are made and future years, these differences are recorded in the year in which the adjustments are made and the future years. The most significant estimates and assumptions the company uses are as follows:

a. Income tax

The Company is subjected to corporate income tax. The Company estimates the income tax provision by using expert's advice. In case of any difference between any of the final and preliminary results, these differences will affect the income tax and deferred income tax provision in these years.

b. Expected credit loss in value of commercial debtors.

The evaluation of the value of receivables is made through debt aging. The Company management is studying the credit position and the ability of payments of the customers who their numerous debts are due during the credit limit granted for them and the impairment is recorded with the value of the due amounts on the customers who the Company management sees that their credit position does not allow them to pay their liabilities.

c. Useful lives of fixed assets

The estimated useful life depends on estimation and personal judgment based on the experience of the Company with similar fixed assets taking into consideration the estimated usage of the assets and number of working shifts and technical limitations. Residual values and useful lives of assets are reviewed periodically.

d. Impairment of Inventory

The company's management reduces the obsolete and low turnover of inventory into its net ordinary value based on special reports about its usage and future benefits.

3.2 Significant personal judgments in applying the Company's accounting policies

Applied accounting policies do not require from management the use of personal judgment, which may have a significant impact on the value recognized in the financial statements.

3.3 Fair value measurement

- The fair value of financial instruments is identified according to the market value of the financial instruments or similar financial instruments on the date of the financial statements. The value of the financial assets is identified by their replacement cost, while the value of the financial liabilities is identified by the current prices that can settle these liabilities.
- In case there is no active market to determine the fair value of the financial instruments the fair value is estimated using different valuation methods taking into consideration the prices of recent transactions and using the current fair value of other significantly similar instruments-Deducted cash flow method- or any other evaluation method results in values on which we can depend.
- When using the deducted cash flow method as a method of evaluation the future cash flow is estimated based on the best estimates by management. And the used deduction rate is identified based on the prevailing price in the market in the date of the financial statements of instruments similar in nature and conditions.

Misr Cement (Qena) Company (S.A.E)
Interim Separate financial statements for the period ended 31 march, 2025

Translation of financial statements
Originally issued in Arabic

4. Significant accounting policies

The accounting policies set out below have been applied consistently to all the years presented in these financial statements.

4.1 Foreign currencies translation

Transactions in foreign currencies are initially recorded using the exchange rate prevailing on the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated using the exchange rates prevailing at the balance sheet date, all differences are recognized in the statement of income.

Non-monetary items that are measured at historical cost in foreign currencies are translated using the exchange rates prevailing at the date of the initial recognition.

4.2 Fixed assets and their Depreciation

a. The first recognition and initial measurement

Fixed assets are stated at the historical cost deducts of accumulated depreciation and accumulated impairment losses.

b. Subsequent Cost of acquisition

Such cost includes the cost of replacing part of the fixed assets when that cost is incurred, if the recognition criteria are met, Likewise, when major improvements are performed, its cost is recognized in the carrying amount of the fixed assets as a replacement if the recognition criteria are satisfied, all other repair and maintenance costs are recognized in the statement of profit or loss as incurred.

c. Depreciation

Depreciation is determined based on the fixed assets less salvage value as residual value at the end of estimated useful life.

The Salvage value of assets is the net amount currently expected to be obtained as a result of disposal, if it is in the expected condition at the end of its useful life.

The depreciation amount is carried on the income statement according to the straight-line method by the useful life estimated to each kind of fixed assets except land that not depreciated, the depreciation of fixed assets are depreciated according to the following rates:

Assets	Depreciation rate
Buildings, constructions and facilities	5% - 6.6%
Machinery and equipment	5% - 10%
Motor vehicles	20%
Tools	10%
Furniture, fixtures and office equipment	10 - 50%

4.3 Intangible assets

The intangible assets are initially recognized at the cost then they are recognized at the cost less the accumulated amortization and the accumulated impairment.

The intangible assets with a definite life are amortized throughout the assets' economic life. An impairment test is made whenever there is an indicator of the assets' impairment. The amortization year and method of the intangible assets with a definite life are revised at least once at the end of each fiscal year.

4.4 Projects under construction

Projects under construction represent the amounts that are incurred for the purpose of constructing or purchasing fixed assets until they are ready to be used in the operation, upon which it is transferred to fixed assets.

Misr Cement (Qena) Company (S.A.E)

Interim Separate financial statements for the period ended 31 march, 2025

Translation of financial statements
Originally issued in Arabic

4. Significant accounting policies (followed)

4.5 Investments in subsidiaries and associates

Investments in subsidiaries and associates are recorded at cost less losses of their impairment, in subsidiaries are accounted for at cost including transaction cost and in case the investment is impaired, the carrying amount is adjusted by the value of this impairment and is charged to the Income Statement for each investment separately.

4.6 Financial investments at fair value through OCI

Financial investments are recognized at fair value through comprehensive income at cost on the date of acquisition. Investments listed on the stock exchange are evaluated at fair value (market value). As for investments not listed on the stock exchange, they are evaluated at their calculated value - according to the studies conducted in this regard - and the value of the resulting differences is recorded. As a special reserve - the differences in the evaluation of financial investments available for sale within shareholders' equity, and when the investment is sold, its share in the special reserve is added to the income statement.

For financial investments at fair value through comprehensive income that are not active (they have no market value in an active market) and whose fair value cannot be determined with a sufficient degree of confidence, these investments are recorded at their acquisition cost, and in the event of a decrease in the value of these investments (impairment), it is Adjusting the book value to the value of this decline and charging it to the income statement for each investment separately.

4.7 Inventory

The Inventory elements are valued as follows:

- Raw materials, gasoline, diesel, packaging and spare parts: at the lower cost (using the weighted average method) or net realizable value.
- Work in progress: at the lower of the cost of production based on the cost sheets or net realizable value.
- Finished goods: at the lower of the cost of production based on the cost sheets or net realizable value.

Cost of production includes the unit's share of direct materials, direct labor and both direct and indirect overheads.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

The amount of any write down of inventories to net realizable value and all losses of inventories shall be recognized in cost of sales in the statement of Income statement in the year the write down or loss occurs, The amount of any reversal of any write down of inventories, arising from an increase in net realizable value, shall be recognized as reduction of cost of sales in the statement of Income statement in the year in which the reversal occurs.

4.8 Revenue

Revenue from sales is recognized at fair value after deducting returns, commercial and quantity discounts. The revenues are recognized at the transfer of risks and returns of goods to the purchaser and at the presence of enough expectation about the flow of economic benefits in the sale transaction and in case of the company didn't hold the right of continuous managerial interference on goods to the purchaser at the receipt of goods, and in case of exporting the risks and returns of sold goods ownerships are identified based on the freight conditions as the revenue usually recognized when the goods are loaded on the truck.

- Dividends

Revenue is recognized when the company's right to receive payment is established.

- Interest income

Revenue is recognized as interest incurred using the effective interest method.

4.9 Expected Credit Loss

- The company has two types of financial assets that are subject to the expected credit losses model according to this methodology:
 - a. Customer balances and notes receivables generated from services to customers
 - b. Contract principles related to the company's contracts with customers
- The company applies the simplified approach to the impairment of financial assets in accordance with the Egyptian Accounting Standard No. (47) Financial Instruments in order to measure expected credit losses, which uses a provision for expected credit losses over the lifetime of all customer balances and contract assets with customers

Misr Cement (Qena) Company (S.A.E)

Interim Separate financial statements for the period ended 31 march, 2025

Translation of financial statements
Originally issued in Arabic

5. Significant accounting policies (followed)

4.9: Expected Credit Loss(followed):

- To calculate the ECL, we depended on the customer and contract assets with customers' balances as a group based on common credit risk characteristics and the number of days past due. Where the assets of the contract with the customer relate to the work in progress that has not been invoiced and has the same risk characteristics as customer balances for the same types of contracts Accordingly, the company concluded that the expected credit loss rates for customer balances are a reasonable approximation of the expected credit loss rates for the assets of contracts with customers.
- ECL rates depended on analyses of sales payments over the 36 months before December 31, 2021, and the corresponding historical credit losses incurred during this year.
- The default rate calculated through this approach and used to calculate ECL is the company's historical default rates for each level of number of days past due by the company's customers, which is depended on sales payment analyzes over the 36 months before December 31, 2021, and the corresponding historical credit losses that have been incurred during this year
- In order to determine losses related to customer balances, notes receivable, and contract assets, the minimum allowable loss in case of failure (Loss Given Default) for each balance at risk is 100% due to the lack of any guarantee with the company.
- The amount that the debtor owes to the company at the time of the failure to pay is known as the balance exposed to failure (Exposure at Default), and the clearing is recognized in the statement of financial position between the balance of the debiting customer and the balance of the same crediting customer, the balance exposed to failure is determined as the unpaid balance on the date of the report, including any interest accrued till the date of the report.
- Egyptian Accounting Standard No. (47) Requires that the purpose of estimating ECL is not a worst-case scenario or a best-case scenario estimate. Instead, the ECL estimate should always reflect the probability that credit losses will occur, even if the most likely outcome is no credit losses. Therefore, the company applies macroeconomic scenarios to expected credit losses, where historical loss rates are adjusted to reflect current and future information about macroeconomic factors that affect the ability of customers to settle outstanding debt balances. The company has determined that the gross domestic product and the current account balance as a percentage of the gross domestic product and the annual change in the rate of inflation "average consumer prices" in the Arab Republic of Egypt, which is the country are sale the goods and the services, so these indicators are the most relevant factors and thus adjust the loss rates historical based on expected changes in these factors.

4.10 Provisions

A provision is recognized in the balance sheet when the Company has a present or legal or constructive obligation because of past events, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are reviewed at the date of preparing the financial statements and adjusted when necessary to show their best estimate.

4.11 Taxes

- Income Tax

Income tax is calculated on the Company's profit and is calculated according to the relevant laws, regulations, and instructions that are currently being implemented in this regard while using the prevailing income tax at the date of preparing the balance sheet. The tax on income should be reflected in income statement.

- Deferred taxes

Deferred tax occurs to reflect the existence of some temporary differences due to the difference in time frames when the current value of assets and liabilities are recognized between the prevailing taxation principles and accounting principles that are adhered to when preparing the financial statement.

The deferred tax is determined according to the prevailing method used to settle the present value of assets and liabilities. It should be taken into account that the deferred tax may be considered an asset of the company if there is a possibility that it may be used to reduce the accrued tax profits of the company for future years, and the amount of the deferred tax considered as an asset of the company is reduced by the amount that may not be off set against future taxes.

Misr Cement (Qena) Company (S.A.E)
Separate financial statements for the period ended 31 december, 2024

Translation of financial statements
Originally issued in Arabic

4. Significant accounting policies (followed)

4.12 Accounts Receivable, notes receivable, debtors and other debit balances and suppliers' advanced payment

Accounts receivable, other debit balances and suppliers' advanced payments are stated at the original invoice amount net of any (impairment) losses that are expected not to be collected by the company.

4.13 Related party transactions

Transactions with related parties are recorded in the same way as its normal operations according to the conditions stated by the company's management and on the same basis as transactions with others.

4.14 Treasury shares

Treasury shares are initially measured at cost value and are deducted from the equity in balance sheet.

4.15 Legal reserve

According to the Company's articles of association, 5% of the net profits of the year are transferred to the legal reserve until this reserve reaches 50% of the issued capital, when the reserve falls below that limit the company should start deducting it again

4.16 General Reserve

The general reserve is formed from the company's profit in the previous year's according to the general assembly meeting resolution; This reserve is used upon a decision from the general assembly meeting based on the proposal of the board of directors and the interest of company.

4.17 Capital reserve

The capital reserve is formed by the amount of capital gains and the fixed assets endowed to the company.

4.18 Borrowing

Borrowings are initially recognized at the value received of the consideration received. Amounts maturing within a year are classified as current liabilities, unless the Company has the right to postpone the settlement for a year exceeding one year after the balance sheet date, then the loan balance should be classified as long-term liabilities.

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate method. Gains and losses are recognized in the income statement when the liabilities are derecognized as well as through the effective interest rate method amortization process.

The amortized cost is calculated considering any discount or premium on purchase and fees or costs that are part of the effective interest rate. The effective interest rate amortization is included in financing costs in the income statement

4.19 Expenses

All expenses including the cost of sales, selling and marketing expenses, general and administrative expenses and other expenses are recognized and charged to the statement of income in the financial year in which these expenses were incurred.

4.20 Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial year of time to get ready for their intended use or sale are capitalized as part of the cost of the assets. All other borrowing costs are expenditure in the year.

4.30 Financial instruments and risk management related

The company's financial instruments are balances of bank accounts, cash in hand, Receivables & Notes Receivables, Debtors & other debit balances, creditors and other credit balances. The following shows the risks related to the financial instruments and the procedures continued by the company to minimize the effect of such risks:

A. Credit risk

This risk is represented in the disability of clients to pay for their outstanding liabilities. This risk is considered limited as the clients have a solid credit history.

B. Liquidity risk

The liquidity risk is represented by factors that impact on the repayment of amount or all of the company's commitment according to the company's policy the suitable policies are taken to decrease the risk level to the minimum.

C. Interest rate risk

The interest rate risk is represented in the change in value of financial instruments due to the fluctuation of the market interest rates. This risk is considered limited as the company depends on its own resources in financing its financial needs to pay its current obligations and finance the fixed assets.

D. Foreign currency risk

The foreign currency risk is the fluctuation of currency exchange rates since that affects the company's open receivables and payables balance in foreign currency also asset and liability evaluation in foreign currency.

30. Tax Situation

a) Corporate taxes

An Introduction

The company was established according to the law No.159 for the year 1981 and the general authority for investment and free zones approved that the company is exempted for tax for cement only according to the law of assurance and incentive of investment No. 8 for the year 1997 and that starts from the next year of production (6 April 2002) and for ten years which starts from 1 January 2003 to 31 December 2012.

Financial year ended on 31 December 2013 considered the first year subjected to tax.

1. Years from beginning of the activity to 2004

All tax differences that are due have been paid.

2. Years from 2005/2007

- The company was inspected in these years the differences were settled and the taxes were paid.
- Tax authority objected on the appeal committee's decision about the provision used for the year 2007 with amount of EGP 11 661 503 based on the fact that the provision represent amounts transferred to abroad and must be subjected to article 56 of law 91 for the year 2005 and decided to debit amount and subject it to 20% amounted to EGP 2 915 376 and filed a lawsuit against the company being considered of Qena first instance. The court used experts to consider the difference. We have prepared a note include the legal defense and discussions with the expert about it and issue the expert report that the tax authority does not have the right to subject the provision used according to article 56 from the law no,91 for the year 2005 and its executive regulations an initial judgment was issued in 24 September 2014 for the entitles for the company about this item. The country appeal representative objected on the decision and the appeal is being considered by the competent court, and the Administrative Court of the State Council in Qena issued a decision rejecting the case, and the representative of the state appealed against the ruling, and it was transferred to the Supreme Administrative Court in Cairo.

3. Years from 2008/2014

The company was examined for those years and the dispute for that year ended.

4. Years from 2015/2018

The tax office sent an estimated form (19 taxes) for those years, including the corporate tax of the amount EGP 315 260 095 and differences in Article (56) in the amount of EGP 29 939 425. The form was appealed within the legal dates, and the actual examination of the company's books and documents was re-examined. The examination resulted in tax differences as follows:

- Corporate tax differences amounting to EGP 28 652 192.
- Article 56 differences amounting to EGP 59 526.
- Article 147 container amounting to EGP 5 182 000

This is in addition to the delay fee and the additional tax, and due to the presence of major points of disagreement between the company and the tax office, the re-examination memorandum was appealed within the legal deadline to discuss the items of disagreement before the competent committee.

5. Year 2019

- The Tax authority examined the company's books and documents for that period. Form (19 Taxes) was sent via the electronic portal of the Tax Authority, including the corporate tax differences in the amount of EGP 7 824 204, in addition to the delay fee and the additional tax. Due to the presence of major points of disagreement between the company and the Tax Authority, the form was appealed. within the legal deadline for discussing the disputed items before the competent committee.

29. Tax Situation (Followed):

6. Year 2020/2023

Based on the Article (41) of the Unified Tax Procedures Law No. 206 of 2020 and Article (49) of the executive regulations of the same law, the mission of the tax center for its major financiers has decided to conduct the examination for those years electronically, and therefore all documents and data necessary for examination must be sent within fifteen days from the date of receiving the notification form for the examination electronically through the authority system

- The company presented the annual tax position at its legal dates.
- The tax authority did not inspect the company for those years.

b) Salary tax

1. Years from beginning of the activity to 2019

The authority examined those years and ended the dispute over that period.

2. The authority checked that period electronically and the examination revealed differences amounting to (2 362 384) and the payment has not been made to date.

3. Year 2023 / 2024

- The company withholds the tax from the employees and exports it to the tax authority at the legal dates.
- The Tax authority didn't inspect the company's documents for that period.

c) Value added tax (Sales Tax)

1. Years from beginning of the activity to 2007

The inspection for that year has been completed and the differences were paid and the dispute was resolved.

2. Years from 2008/2010

The Tax authority inspected the company for that year and form (15 D A M) was issued with differences in sales tax amounting to EGP 1 147 876 and the company has objected on this form and the review was completed by Supreme Committee which reduced the amount to EGP 697 549 and this amount was paid to avoid the penalties, the dispute was referred to the court, the case is being taken to court. A judgment of the Administrative Court was issued acquitting the company from the tax differences for the year from 1/1/2008 to 5/3/2009, with the consequent effects and Waiting to obtain the executive formula to settle the amount with the interest.

3. Years from 2011/2020

The inspection for that year has been completed and the differences were paid and the dispute was resolved.

4. Period from 1/12/2020 to 31/12/2023

- The company submits tax returns on time.
- The mission sent a notification of the electronic inspection on the system, and the requirements were submitted. We are awaiting the completion of the inspection.

5. Year 2024

- The company has been submitting tax returns on time as per legal requirements.
- The tax authority did not conduct an examination of the company for those years.

d) Development of the country's financial resources fees

1. Years from 5 May 2008 to 2023

-The Tax Office has reviewed the company's books and documents for that period, and no claims have been issued to the company for the year 2021 while the differences for the year 2022 were in the amount of EGP 28. There is also a delay charge as a result of the delay in monthly payments in the amount of EGP 262 05 for the year 2022. 35% was paid and a request was submitted to waive the remaining amount, as well as a late payment fee for the year 2023 in the amount of 2,035,528 Egyptian pounds, of which 500,000 Egyptian pounds were paid.

2. Year 2024

- The company calculates the fee due in accordance with the law and submits it to the Tax authority on the legal date.

30. Tax Situation (Followed):

e) Property tax

Introduction:

Law No. 196 of 2008 was issued, imposing a tax on built properties, which was then amended by Law No. 103 of 2012 and further by Law No. 117 of 2014.

Application of the Law: The law has been applied since 1/7/2013, with the valuation being effective until 31/12/2021, according to Law No. 4 of 2019, which amended Law No. 196 of 2008.

Dependence on Valuations: The tax authority relied on valuations for calculating the tax due on the company for the years 2022, 2023, and 2024, as no notifications of new valuations were received.

Company's Declarations: The company submitted real estate tax declarations for its properties in accordance with Law No. 196 of 2008 and its amendments

Government Decision: On August 30, 2022, a decision was issued by the Council of Ministers for the Ministry of Finance to bear the full tax due on built properties used in certain activities from 1/1/2022, for a period of three years, subject to conditions. The cement activity was listed under item number 12 among the activities for which the Ministry of Finance bears the tax due on its properties used in the activity.

-- The Real Estate Tax Authority issued Circular No. 5 of 2022 on September 6, 2022, outlining the necessary controls and procedures for implementing the aforementioned Cabinet decision. This circular includes the procedures to be followed by the tax offices in the real estate tax zones.

-The company has stated that it has submitted a request along with the required documents in accordance with the circular. However, to date, the company has not received approval for its request.

32. Changes in Egyptian accounting standards

Dated March 3, 2024 issued by the Prime Minister's Decision no. (32) for 2024 to amend some provisions of the Egyptian Accounting Standards and below is summary of the most important amendments.

The Standards that were Reissued	Summary of the major amendments	Impact on the financial statements	Date of application
Amended Egyptian Accounting Standard No. 34 "Investments Property"	The fair value model application mechanism has been modified, adding that the profit or loss arising from a change in the fair value of investment property must be recognized in the list of profits or losses for the period in which the change arises or through the other comprehensive income list once in the age of the asset or investment, taking into account paragraphs (35a) and (35b) of the standard.	Not applicable to the company	The amendments to add the fair value model option to the financial periods commencing on or after 1 January 2024, allowing for early retroactive application, with the cumulative effect of applying the fair value model being demonstrated initially by adding it to the retained earnings balance at the beginning of the financial period in which the company first applied the model.
Egyptian Accounting Standard No. (17) amended 2024 "Separate Financial Statements"	Egyptian Accounting Standard No. (17) "Financial Statements" was reissued in 2024, where the option to use the equity method as described in Egyptian Accounting Standard No. (18) has been added "Investments in Associate Companies" when accounting for investments in subsidiaries, associate companies and joint control companies.	Applies to the company	The amendments shall apply to financial periods commencing on or after January 1, 2024, and early application is allowed retroactively, with proof of the cumulative impact of the application of the equity method by adding it to the retained earnings balance at the beginning of the financial period in which the company first applied the model.
Egyptian Accounting Standard No. (13) amended 2024 "Effects of Changes in Foreign Exchange Rates"	This standard was reissued in 2024, adding how to determine the intraday rate when it is difficult to exchange between two currencies and the conditions that must be met in the intraday exchange rate on the measurement date. An application guidelines appendix has been added, which includes guidelines for assessing whether a currency is exchangeable for another currency, and guidelines for applying the required treatments in case of non-exchangeability.	Management is currently assessing the potential impact on the financial statements of the application of amendments to the standard.	The adjustments for determining the intraday exchange rate when the exchange between two currencies is difficult shall be applied to the financial periods starting on or after January 1, 2024, and early application is allowed, and if the entity makes early application, this must be disclosed. Upon application, the entity may not modify the comparative information, instead: When an entity reports foreign currency transactions in its currency of dealing, any effect of the initial application is recognized as an adjustment to the opening of the retained earnings balance on the date of initial application. When an entity uses an offer currency other than its own dealing currency or translates the results and financial position to a foreign currency, any effect of the initial application is recognized as an adjustment to the cumulative balance of foreign currency exchange— accumulated on the equity side — on the date of initial application.

- On October 23, 2024, Prime Ministerial Decree No. (3527) of 2024 was issued to amend certain provisions of the Egyptian Accounting Standards, and to issue Egyptian Accounting Standard No. 51 (Financial Statements in Hyperinflationary Economies). This standard shall be applied to the financial statements of the entity starting from the beginning of the financial period in which the economy is classified as hyperinflationary, and shall be activated pursuant to a decision issued by the Prime Minister.

33. Important Events

- On March 6, 2024, the Monetary Policy Committee of the Central Bank of Egypt decided to raise the overnight deposit and lending rates, and the main operation rate of the central bank by 600 basis points to 27.25%, 28.25%, and 27.75% respectively. The discount and credit rates were also raised by 600 basis points to 27.75%. The central bank also decided to allow the exchange rate to be determined according to market mechanisms. Consequently, the exchange rates of the Egyptian pound against the dollar and some other currencies declined.
- The impact of the current uncertain economic environment is an estimation, and the management will continue to assess the current situation and its associated impact regularly and it should also be considered that the assumptions used regarding economic expectations are subject to a high degree of uncertainty and, therefore, the actual outcome may differ significantly from the expected information. The company has considered the potential effects of the current economic fluctuations, which represent the best assessment by the management based on available information. However, markets remain volatile, and the recorded amounts remain sensitive to market fluctuations.
